

900.4 - Cyber Bullying Policy

University Group Policy #900.4

I. Executive Summary

This policy governs the act on of cyber bullying for the Johnston-Salem State University community

II. Policy Statement

Johnston-Salem State University recognizes the importance of information technology to the mission of a modern university. At the same time, these platforms present opportunities for misuse and for people to harm others when the technology is used without regard to consequences and without respect for one another. A safe and civil environment at the University is necessary for students to learn and achieve high academic standards and for faculty and staff to operate in a prosperous environment.

III. Definitions

Cyber Bullying: act of a student that deliberately threatens, harasses, and/or intimidates an individual, places an individual in reasonable fear of harm to the individual or damage to the individual's property or has the ^{ar} ~~an~~
